Diagram Editor

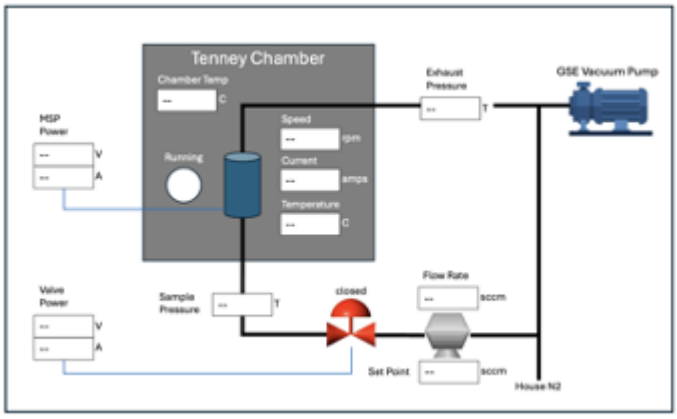
The Diagram Editor tool allows you to create and manage responsive diagrams and dashboards. While you can view data here, the Diagram Viewer and Diagram Simulator are better suited for that purpose.

For a video tuturial, click here

To download a PDF of a training presentation, click here

To download a PowerPoint of the training materials, click here

The layout of the Diagram Editor is almost identical to the Diagram Viewer, so please refer to the Diagram Viewer tutorial for an introduction.



Revision #3
