Secure Lab Enclave (SLE) Setup

The Secure Lab Enclave (SLE) is a private network accessible from the lab (B37/S118 for DraMS). GSE computers in the lab can be accessed remotely through the SLE.

1. Log into the SLE website with your NASA credentials: https://sleaccess.sci.gsfc.nasa.gov/
2. On Windows, open Remote Desktop Connection and enter the IP for the GSE computer you want to access:

- GSE-1 - 10.171.37.130
- GSE-2 - 10.171.37.131
- GSE-3 - 10.171.37.132 (on loan to the Electrical team in B23/E320)
- PSU - 10.171.37.133 (network-accessible power strip in B37/S118)
- GSE-4 - 10.171.37.134 (on loan to the Electrical team in B23/E320)
- GSE-5 - 10.171.37.135 (in the DRAMATTIC rack in B29/154)
- GSE-6 (new)
- GSE-7 (new)
- GSE-8 (new)
